With extreme market volatility, make sure that you have offers in to sell your grain. These orders work day and night to get you the price you want.

We are running on iView.

What is iView? iView is a program that allows you to see your account any time of day or night. Look at scale tickets, contract listings and balances, all accessible from your home computer.

REMINDER:

***It has always been, and continues to be company policy that in-store bushels do not apply to to-arrive contracts.
To-arrive contracts are written for delivery in the month which they are written.***

Grain purchases are only made from 09:30 to 13:10.
