## FREE PRICE LATER PROGRAM

Effective April 1<sup>st</sup> 2009 Minnesota Energy will begin our Free Price Later program.

This program will be in effect thru August 31<sup>st</sup> 2009. All received corn/bean bushels in the program will need to be priced on or before the end of the program. No grain on futures contact or on storage can be rolled into the program. If they are not priced by the end of this period all bushels will be reverted back at the time of delivery at .04 cents a bushel rate accrued daily. Please be sure to let your scale attendant know of your intentions before weighing in. We reserve the right to cancel the program at anytime if room becomes short at any location.

Free price later can not be used for the ethanol commitment.

All other grain marketing options will remain the same such as open storage, cash, future contracts and HTAs.

We hope this will help you prepare for your busy spring and summer schedules. Please call if there are any questions.
